

Since our founding in 1960, The S&S Automotive Group has dedicated itself to being the best automotive supplier in the United States. We have assembled a team of trained professionals who are equally dedicated to making it easy for you to receive the supplies and services you need at the most competitive prices available. Our six companies cover all aspects of your automotive needs.

### **S&S AUTOMOTIVE**

Tens of thousands of quality products to support your parts, service, used car, and reconditioning departments. S&S is the only name you need to know for all of your back shop needs.

### **SUPERIOR SOUND**

All the profit building, high quality aftermarket accessories you need. Our ten installation facilities and over 200 trained and certified technicians support you. We guarantee greater penetration and increased profits.

### **SUPERIOR F&I**

Providing your F&I Department with the most comprehensive programs available in the industry, including extended service contracts, CLAH Insurance, GAP Insurance, Window Etching Deterrent and Tire & Wheel Warranty Coverage. Our comprehensive training, ongoing sales support and detailed monthly reporting help ensure your profitability.

### **S&S INDUSTRIAL** (non-automotive)

Saving you time and money as your COMPLETE SOURCE for a wide variety of products and services that you need to run your business. We have the best prices and services available!

### **BEAR OIL**

A full line of branded and non-branded, API-approved lubricants and services. Our privately owned fleet of tankers deliver millions of gallons of oil and oil-related products.

### **CELLUTECH**

Represents all of the major brands of cellular phones and accessories at the lowest prices GUARANTEED! Cellutech has been named Cingular's Agent of the Year for 16 years. Our knowledgeable staff and 10 installation facilities can assist you with commercial and fleet accounts.

I am proud of our sales staff and over 40 customer service reps that know their business, (some of whom are shown on page 58). They are dedicated to taking care of the needs and wants of our valued customers.

The S&S Automotive Group opened its doors in 1960 with three employees; today we have grown to over three hundred. What does that prove? It proves that we have learned the fundamentals of the service business, but not without your help. I am interested in your ideas and suggestions on how to improve our service; so if you have any questions or concerns, please feel free to call.

# WHEEL WEIGHTS

## COATED WEIGHTS FOR ALLOY WHEELS

Perfect Equipment wheel Protectors® Coated Wheel Weights for alloy wheels have a special polymer coating. The silver/gray coating prevents corrosion of the alloy wheel that normally occurs with uncoated wheel weights. These weights meet or exceed all OEM specifications to protect the wheels from corrosion caused by the electrolytic reaction between lead and an alloy wheel.

Coated weights have been original equipment on new cars since 1985 and should be used as a replacement on these

vehicles. They should also be used on vehicles manufactured prior to 1985 having alloy wheels. To avoid damage to the coating, a soft hammer, number 75K or equivalent, should be used to install these weights.

Since alloy wheel flanges have a flatter design, tire movement under normal road use has a tendency to push the weight off the flange. Our unique clip design prevents the weight from coming off the flange.

### “AWN” SERIES Wheel Protectors

Fits Buick, Cadillac, Chevrolet, Chrysler, Dodge, Eagle, Geo, Isuzu, Oldsmobile, Plymouth, & Pontiac. Please see specific application on chart.

### “FN” SERIES Wheel Protectors

Fits Acura, Geo, Honda, Infiniti, Lexus, Nissan, & Toyota. Please see specific application on chart.

### “MCN” SERIES Wheel Protectors

Fits Buick, Cadillac, Chevrolet, Chrysler, Dodge, Eagle, Ford, Lincoln, Mazda, Mercury, Mitsubishi, Oldsmobile, Plymouth, Pontiac, & Saturn. Please see specific application on chart.

### “TP” SERIES Wheel Protectors

Fits Chevrolet, Ford, GMC, & Lincoln. Please see specific application on chart.

### “LH” SERIES Wheel Protectors

Fits Chrysler, Dodge, & Plymouth. Please see specific application on chart.

### QuikStik® Passenger Car & Motorcycle Applications

100720 – Box contains 60-3 oz. strips pre-cut in 1/4" oz. (7g.) increments of 1/2" width.

200624 – (Low profile) Used primarily on imports where the brake caliper clearance knocks off the standard thickness QuikStick® weights. Box contains 52-3 oz. strips pre-cut in 1/4" oz. (7g.) increments of 3/4" width.

### “IAW” SERIES Wheel Protectors

Fits AMC, Audi, BMW, Chrysler, Dodge, Eagle, Geo, Hyundai, Merkur, Mitsubishi, Nissan/Datsun, Plymouth, Pontiac, Saab, Sterling, Subaru, Suzuki, Toyota, Volkswagon, & Volvo. Please see specific application on chart.

### 75K Installation Tool

Unique “Soft Head” design allows coated weights to be installed without damaging the coating. Unique rear-mounted, hardened-steel, clip-claw horn quickly removes

old weights. Horns are replaceable. A “must have” tool for coated wheel weights.

### “EN” SERIES Wheel Protectors

Fits Acura, Audi, Honda, Mercedes, & Volkswagon. Please see specific application on chart.

- 1 Some vehicles equipped with optional Vogue chrome-plated aluminum wheels. Adhesive weights are recommended for all chrome-plated aluminum wheels, e.g., QuikStik® or "CC" weights.
- 2 Some Polycast® wheels were used. These require "MCN" weights on the outboard side and the "P" weights on the inboard side.
- 4 Can also use "MBN" 2-piece coated weights.
- 5 Some wheels require QuikStik® weights. Adhesive weights are recommended where the flange is less than 3/16" deep.

 Indicates vehicle was either not manufactured or not factory equipped with alloy wheel option that model year.

Use rim gauge RGP-1 to verify correct application. If unable to verify correct application, use QuikStik® adhesive style weights.

**6** Vehicles equipped with BBS wheel option use "EN" weights.

**8** Vehicles equipped with BBS wheel option use "MCN" weights.

**12** Some wheels require "IAW" weights. Verify application with rim gauge GGP-1.

**16** Some vehicles are equipped with US produced wheels. These wheels have different inboard/outboard configurations. Consult Bulletin APP200001 for more details or verify series with RGP-1.

- 1 Jeep vehicles equipped with 5-spoke 15" x 7" aluminum wheels require QuikStik® weights on the outboard side of wheel.
- 4 Can also use "MBN" 2-piece coated weights.
- 7 Both US-made and Japanese-made wheels were used. Japanese wheels use "FN" weights.
- 12 Some wheels require "IAW" weights. Verify application with rim gauge GGP-1.
